

1 Read the text and match the phrases (1-4) to the pictures (A-D).

WORLD ENVIRONMENT DAY

On 5th June every year, people all over the world celebrate World Environment Day. It is a special day when everyone can learn about the environment and how to take care of it. On World Environment Day, there are lots of activities to do. Some people plant trees and other people help clean up a park or a beach in their town or city. Also, lots of people do things to help the environment in or around their home. For example, they 1) **recycle rubbish** or 2) **pick up litter** from the street. They also try not to 3) **waste food** or 4) **use single-use plastics** like plastic cups, forks, spoons, knives and drinking straws. All of these actions can make our environment a safe place for us to live.

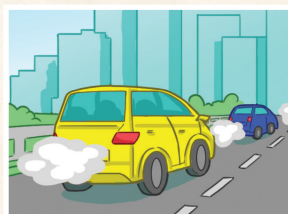

2 Tick the actions that you think help the environment. Compare with your partner.

☐ recycling rubbish

☐ wasting food

☐ driving a car

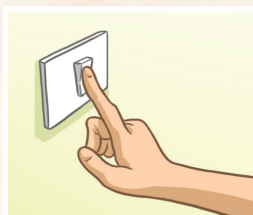

☐ picking up litter

☐ using single-use plastics

☐ using lots of water

☐ turning lights off when you don't need them

☐ planting trees

☐ using cotton bags
